- Separate anti-thrust bolt
- 28mm aluminium latch
- Ideal for 50mm section
- Latch compatible with electric strikes
- Reinforced latch & thrust bolt
- Backset of 28mm
- 15.5mm bolt projection
- Non-hold back (BL2002SC)
- Hold back (BL2202SC)

The **2000 series** is a range of fully mechanical pushbutton coded locks. The ergonomic design and simple operating procedure ensures access for authorised personnel only. Automatic locking until correct code is entered and an anti-thrust latch provide greater security.

Easy to fit, (fittings to suit doors up to 54mm thick) and with all parts and fittings included it is ideal for many different usage applications.

Main Features

- New compact latch design
- Suitable for single and pairs of doors
- Perfect for shop fronts, offices & workshop entrances
- Different lengths of strike available
- Inside handle free at all times
- Fully reversible
- Easy code change procedure
- Suits doors from 35mm to 54mm thick and upto 80mm extension accessories
- Tested to more than 50,000 cycles
- More than 8000 codes to choose from
- Suitable for internal use

Available finishes in selected models:

PB - polished brass SC - satin chrome

3000series

BL3500SC
- Includes rim fixing deadbolt

BL3700SC
- Digital lock with key override
- 60mm anti-thrust tubular latch
- 70mm latches are also available
- 12mm bolt projection
- Easy grip knob design
- Yale keyway
- Keyed alike option

BL3702SC
- Digital lock with key override
- 28mm aluminium latch
- Easy grip knob design
- Yale keyway
- Keyed alike option

The **3000 series** use the same pushbutton key pads as the 2000 series, but offers more model variations to suit a wider range of applications. They include key override model BL3700 enabling the code to be overridden by the key and rim fixing deadbolts (BL3500) for greater security, further demonstrating that Borg provides a model suitable for virtually every application.

Main Features

- New compact latch design
- Suitable for single and pairs of doors
- Perfect for shop fronts, offices & workshop entrances
- Different lengths of strike available
- Inside handle free at all times
- Fully reversible
- Easy code change procedure
- Suits doors from 35mm to 54mm thick
- Tested to more than 50,000 cycles
- More than 8000 codes to choose from
- Suitable for internal use

BL5001SS
- 60mm anti-thrust tubular latch
- 12mm bolt projection
