GTI ULTRA TRANSPONDER

The latest all-in-one* transponder is here: Silca GTI Ultra

Building on the smash hit success of the GTI Pro, the new version retains the previous functionality and adds ID48 Cloning for Megamos chips, including the variants such as ID6K and ID7K, and ID49-1E for Renault. With this one chip, you can clone 98% of the cloneable vehicles on the market today using Silca's RW5 or Smart Aerial Plus devices and the power of cloud-powered cloning servers.

Cloud powered cloning provides for unattended and autonomous updates, super-fast cracking, industry leading reliability and maximum coverage with one simple to use device and interface.

GTI Ultra supports Toyota G and H, Honda G, 8C for Ford and Mazda, all Texas fixed and Crypto plus ID48 and the latest iterations. Streamline your stock, stop guessing, and get the power of Ultra.

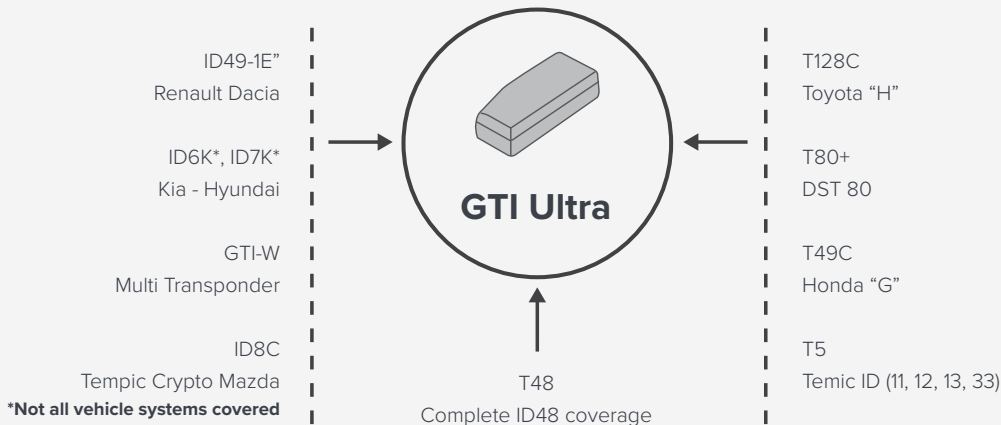

The price is the same as before, and bulk-buy quantity breaks are available.

Part Number: **SC110026**

- ✓ **ID48 Cloning**
Plus Renault Dacia ID49-1E* and Hyundai ID6K* and ID7K*
- ✓ **98% Coverage**
Complatable with 98% of cloneable car keys
- ✓ **Lasts Longer**
The Silca GTI Ultra transponder is tested to hold cloned data for 35 years
- ✓ **10 year Guarantee**
Only Silca GTI Ultra transponders come with a 10 year guaranteee

KEY PROGRAMMING SOFTWARE UPDATE

First to market all- keys-lost programming for 2018 onwards Toyota*‘H-type’ bladed keys

Unique solution

Developed specifically for the Australian market, the SD756605AD (ADS2328) software is the first to program DST128, ‘H-type’ bladed keys with TIS security, for popular, recent Toyota models like the Corolla, RAV4 and Hiace.

No working key required

In combination with the ADC2016 cable, both spare and all keys lost situations are supported and TIS requirements are bypassed automatically.

What else is needed?

LSC 100 YEARS OF COMMITMENT

Locksmiths Supply Co.

THE BUILDER

Stuart's Era

Last Issue we left off in 1948, when 18-year-old Stuart Johnson joined the business, then still known as A. F. Johnson & Co.

As Stuart settled in, the post-war economy was beginning to recover. Importing and exporting demands were growing rapidly, trade routes had reopened, and the timing was right to reinvigorate the lock trade. On 26th April 1949, the now familiar name Locksmiths Supply Co. was officially registered, marking the start of a new era.

Following the successful introduction of EzyCut in the early 1950s, the next three decades saw it become the most widely used key blank in Australia. In the early years, sales were driven largely by word of mouth, but as demand grew, a more active approach was needed.

By 1951, at just 21 years of age, Stuart was travelling extensively across the country, calling on locksmiths and building relationships face-to-face. He promoted not only EzyCut, but a growing range of products including Lockwood, Yale, Union, Vaughn, Mancuna, ILCO, Mattox, CO Tilney and many others, spending countless hours sourcing products locksmiths would

value from around the world.

These were the days before fax, email or the internet. Once Stuart found something new, he would load it into the old Studebaker or Chev and head out on the road to show customers in person. Throughout the 1950s he travelled widely - north beyond Brisbane, west to Adelaide, regularly to Sydney, and later to Perth. It was a time of hard work, long drives and worn tyres, but it laid the foundations for LSC's national presence.

By the early 1960s, the rise of commercial air travel began to change everything. The jet age made it far easier to move around Australia and opened the door to overseas travel. Stuart was able to meet suppliers face-to-face, strengthening relationships with companies such as HPC, ILCO, Taylor, Dominion Lock Company and CO Tilney. These connections helped accelerate the growth of both LSC and the locksmithing industry across Australia.

Mark Johnson

Lock Technicians Association New Zealand

LSC New Zealand is proud to support and be attending the first ever Lock Technicians Association NZ Trade & Training Event in Rotorua this April. We will be showcasing a wide range of our industry leading products and there will also be hands on training sessions available. The team is super excited and are looking forward to seeing you there.
