BRAVA DDA Levers: Compliant & Secure

LSC at the NZ MLAA Expo

Complete
SECURITY
SOLUTIONS

NEW ZEALAND'S MOST TRUSTED COMMERCIAL PADLOCK

With the largest range of options & accessories available, custom etching or embossing & Australian Standard Certified it's no wonder the ABUS 83/45 & 83/50 are the locksmiths' padlock of choice. The AS4145.4 2002 standard applies to padlocks used in conjunction with padlock fittings. Requirements that relate to;

- **PHYSICAL SECURITY** is classified under 10 levels, based on performance tests that simulate attack. The security rating is based on the lowest test result achieved.
- **CORROSION RESISTANCE** is classified under 5 levels, based on standard accelerated corrosion tests.

ABUS 83/45

**Physical Security
Rating SP6**

**Corrosion Resistance
Rating C4**

ABUS 83/50

**Physical Security
Rating SP6**

**Corrosion Resistance
Rating C4**

Your customers can rest easy knowing their ABUS 83/45 and 83/50 padlocks are Australian Standard Certified, as requested by many commercial insurers & Government Depts. Just another reason why ABUS is the locksmiths' padlock of choice.

Tested and Australian Standard Certified AS4145.4 2002

Locksmiths choice when Uncompromised Security is Required

When that high security job or Government installation requires high security padlocks, it's time to use an ABUS 83 series solid hardened steel body version. The models below are SEEPL Certified for use in Australian Government facilities.

ABUS 83/55 Series
Security Level 3 (SL3)

ABUS 83/60 Series
Security Level 3 (SL3)

ABUS 83/80 Series
Security Level 4 (SL4)

✓ Years of trouble-free service

Unlocking Accessibility with BRAVA DDA Compliant Levers

BRAVA's range of DDA compliant levers combines accessibility, durability, and security to meet the highest industry standards.

Designed for easy grip operation, these levers ensure effortless use for individuals with limited hand dexterity and mobility, complying with BCA AS1428.1-2009 for accessibility. Successfully tested for up to four hours on fire door assemblies in accordance with AS 1905.1-2005, our levers offer both peace of mind and long-lasting performance.

Beyond accessibility and fire safety, BRAVA levers incorporate a Silca LW5 profile 6-pin cylinder and feature the popular PD 8221 barrel, ensuring high-security functionality. Compatible with most restricted keying systems, these levers provide flexibility for commercial and residential applications requiring key control and system integration. Whether you're upgrading an existing space or securing a new project, BRAVA delivers accessibility, compliance, and security in one complete solution.

LSC AT THE NZ MLAA EXPO

What a fantastic day at the NZ MLAA Trade Expo on March 21, 2025, at the Cordis Hotel, Auckland! We had a great time connecting with locksmiths and industry professionals, showcasing our latest security solutions, and discussing how we can support Locksmiths across New Zealand.

Some of the most popular highlights at our stand were the McGrath Locks range and live Silca Key Machine demonstrations which drew plenty of interest!

We also had the opportunity to hear firsthand from Locksmiths about the challenges they face and the innovations they're most excited about. These conversations help shape how we continue to develop and deliver solutions that truly meet industry needs. It was a valuable reminder of how important collaboration is in driving innovation forward.

A big thank you to everyone who visited our stand—it was great to chat, demo products, and exchange insights. Events like these are invaluable for learning, networking, and driving the future of security.

We're proud to support the MLAA NZ community and look forward to seeing you again soon!

HAPPY CUSTOMERS

SKOPIK HOLDING
AUCKLAND

Ravi from Skopik Holding is excited to showcase their newly purchased Salto advanced access control solutions, ready to be installed for their commercial clients. They're committed to delivering cutting-edge security systems—and Salto is a perfect fit for their growing portfolio.
